

Physicians Preference Pharmacy compounds *hair growth capsules* FOR BOTH WOMEN AND MEN

**Are you experiencing hair loss?
Is your hair thinning or falling out?**

We all love having a beautiful head of hair, so hair loss can be devastating when it occurs. Whether your hair is thinning, or you are losing hair in the shower or on your pillow, whatever the case may be, you may be desperately seeking a solution so you can regrow your hair and feel like your old self again, and we can help!

The goal of Physicians Preference Hair Growth Capsules is to decrease hair loss, promote hair growth and increase hair follicle size and thickness.

The hair capsules we offer include the following variations:

- Finasteride/Minoxidil/Biotin capsules
- Minoxidil/Biotin/Finasteride/Dutasteride capsules
- Dutasteride capsules

Here are what each of the ingredients do:

Minoxidil stimulates hair growth through vasodilation, increased cutaneous blood flow and stimulation of resting hair follicles.

Biotin is used to support healthy hair, skin, and nails.

Finasteride competitively inhibits type II 5-alpha reductase, resulting in inhibition of the conversion of testosterone to dihydrotestosterone and markedly suppresses serum dihydrotestosterone levels.

Dutasteride is used in treatment of male pattern hair loss (androgenetic alopecia), it inhibits the conversion of the androgen testosterone to dihydrotestosterone (DHT).

Different combinations are used in males and females depending upon your individual needs.
